House on Lake Biel

This house is located on the south side of Lake Biel, in close proximity to a villa designed in the 1970s by the architect Fritz Haller. The views across the lake landscape, the Jura Mountains with their vineyards and the moorland conservation area are breathtaking. Nature and the adjacent villa were defining elements for the architects when drafting the design concept. On the ground floor, the theme of flowing space clearly relates to the spatial concept of the adjacent villa and also strengthens connections to exterior areas and the stunning views of the surrounding landscape.

01 Exterior with pool | 02 Entrance with bamboo garden | 03 Exterior with Zen garden | 04 Seating area | 05 Sections
